

Korea Reborn Book Distribution

State Points of Contact

11/29/13

The printing and distribution of the Korea Reborn books was generously paid for by the Republic of Korea to thank Korean War Veterans and their families for their service to their country. The funds do not allow for books to be sent to each Veteran's house, but did allow for books to be shipped to at least one location within each state. Each state has its own distribution plan and point of contact, but the general idea is for Veterans Service Organizations throughout the state to assist in picking up and distributing books to all regions of the state and all those who are interested in getting a copy. To facilitate in this process, we have provided a list of contacts for each state below. Should your state not have a contact, please work with your local VSO leaders to arrange to get books from the nearest location.
